WP 0518

ODOUR ELIMINATOR

Odour Eliminator uses micro-organisms to biologically breakdown organic materials that cause offensive odours.

ODOUR ELIMINATOR

BENEFITS

- Highly effective on flooring, fabric, wood or carpets.
- Suitable for fabrics and all hard surfaces.
- Eliminates smell at source.
- Removes odours from human and animal 'accidents' e.g. milk spills etc.
- Natural and eco-friendly.
- Manufactured by an ISO 9001:2015 certified company.

PRODUCT SIZES

- 750 ml
- 3.25 litre refill

DESCRIPTION

Odour Eliminator doesn't mask the smell, it eliminates the source of the smell by using bacteria to digest the organic material, leaving no residue or stain.

The organic waste is neutralised and converted into harmless carbon dioxide and water, eliminating the offensive odours.

It is great for use on vomit, toilet accidents, spilled milk, cigarette smoke, pet odours, stale smells from over-wintering and more.

It is suitable for use on carpet, curtains, fabric seats, plastic, metals and any other surface not harmed by water.

Odour Eliminator contains a perfume to reodourise the site which will override the smell giving immediate relief and preventing the 'gagging effect'.

The product does not harm humans or animals and is organic, biodegradable and environmentally friendly.

INSTRUCTIONS FOR USE

For liquids (e.g. urine), simply spray on and leave.

For solids (e.g. faeces), spray one application over the material to control the smell. Remove the solid material and then spray on any residual damp patch and leave.

Do not mix with disinfectants or any other chemicals.

Odour Eliminator can also be sprayed and left to do its work over night, or permanently with no detrimental effect on surfaces not harmed by water.

Keep only in the original container, in a cool, well ventilated place away from direct sunlight. Keep container closed when not in use. Store in a well-ventilated place. Keep cool.

PHYSICAL PROPERTIES

Colour: Light blue.

Appearance: Light blue liquid.
Odour: Pleasant (perfume).
Solubility: Soluble in water.
Boiling point: No data available.

Flash point: ~65°C

Flammability: Non-flammable.

Density: 1g/cm³

pH: 4.8.
