

Water Clarifier WP 1608

Water Clarifier will coagulate small particles into larger clusters to allow them to be filtered out of water

BENEFITS

- Coagulates small particles into larger clusters to allow for filtration
- Can be used as a shock treatment
- Suitable for bromine and chlorine users.
- Can be used daily in high use pools/spas to keep water clear.

DESCRIPTION

Water in spas, hot tubs and swimming pools will contain micro particles that are too small to be filtered out. These particles can cause the water to become cloudy.

Water Clarifier causes these micro particles to coagulate and form larger clusters which the filtration system can then filter out, leaving the water clear.

Can be used occasionally or as a daily treatment if the spa/pool has heavy usage.

PRODUCT SIZES

- 1 litre

INSTRUCTIONS FOR USE

Spas and Hot Tubs

- Dose approximately 100ml to 1000 litres of bathing water
- Dilute in a container prior to application and ensure good mixing through the spa to aid flocculation.
- Keep filters on during application of spa/hot tub

Swimming Pools

- Dose approximately 3 litres per 50,000 litres of water.
- Water clarifier can be used as part of a daily cleaning routine to help keep clear and free from dirt if in a frequently used environment

PHYSICAL PROPERTIES

Colour: Yellow

Appearance: Clear liquid

Odour: Slight

Solubility: Completely miscible

Boiling point: >100 °C

Flash point: No flash point

Flammability: Not applicable

Density: 1.134 g/cm³

pH solution: ~2.5

HEALTH & SAFETY

Hazard pictogram (CLP):

Hazard statements (CLP):

H290 – May be corrosive to metals

H318 – Causes serious eye damage

Precautionary statements (CLP):

P234 – Keep only in original packaging.

P280 – Wear eye protection, protective gloves, protective clothing.

P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing.

P310 – Immediately call a doctor.

P390 – Absorb spillage to prevent material damage.

P406 – Store in corrosive resistant container with a resistant inner liner.
